

E115 Ester Oil Charge Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations Revision date: 11/11/2014 Supersedes:07/08/2013

Version: 2.0

| SECTION 1: Identification of the s | | | | |
|---|---|--|--|--|
| Product form | : Mixture | | | |
| Trade name | : E115 Ester Oil Charge | | | |
| Product code | : E115 Ester On Charge | | | |
| | - | | | |
| | ubstance or mixture and uses advised ag | | icont into D 1240 oir conditioning | |
| Jse of the substance/mixture | : E115 Ester Oil Charge is used to ch systems. | arge Polyol Ester lubri | Icant into R-134a air conditioning | |
| I.3. Details of the supplier of the safe | ety data sheet | | | |
| Tire Seal, Inc. 3574 Corona Street 33461 Lake Worth, Florida - USA T 561-582-2245 - F 561-582-1499 | | | | |
| www.supercool.ac | | | | |
| 1.4. Emergency telephone number | | | | |
| Emergency number | : USA PHONE:1-800-373-7542, INT'I DGA/AAG ENVIRONMENTAL CON | | 8 | |
| SECTION 2: Hazards identification | 1 | | | |
| 2.1. Classification of the substance of | r mixture | | | |
| Classification (GHS-US) Not classified | | | | |
| 2.2. Label elements | | | | |
| GHS-US labeling | | | | |
| Hazard pictograms (GHS-US) | | | | |
| | GHS04 | | | |
| Signal word (GHS-US) | : Warning | | | |
| 2.3. Other hazards | | | | |
| Other hazards not contributing to the classification | : Contains gas under pressure; may t | ourst if heated. | | |
| 2.4. Unknown acute toxicity (GHS-US | 5) | | | |
| No data available | | | | |
| SECTION 3: Composition/informa | tion on ingredients | | | |
| 3.1. Substance | | | | |
| Not applicable | | | | |
| Full text of H-phrases: see section 16 | | | | |
| 3.2. Mixture | | | | |
| Name | Product identifier | % | Classification (GHS-US) | |
| Carboxylic Acid Ester (Constituent) | (CAS No) 68515-49-1 | 5 - 65 | Acute Tox. 4 (Oral), H302 Acute Tox. 4 (Dermal), H312 | |
| SECTION 4: First aid measures | | | | |
| 4.1. Description of first aid measures | | | | |
| First-aid measures general | : Never give anything by mouth to an advice (show the label where possib | | lf you feel unwell, seek medical | |
| First-aid measures after inhalation | : Assure fresh air breathing. Allow the | | | |
| First-aid measures after skin contact | : Remove affected clothing and wash by warm water rinse. | all exposed skin area | with mild soap and water, followe | |
| First-aid measures after eye contact | : Rinse immediately with plenty of wa persist. | : Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persist. | | |
| First-aid measures after ingestion | : Rinse mouth. Do NOT induce vomit | ng. Obtain emergency | / medical attention. | |
| 4.2. Most important symptoms and e | ffects, both acute and delayed | | | |
| Symptoms/injuries | : Not expected to present a significant | t hazard under anticip | ated conditions of normal use. | |
| | | | | |

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| according to Federal Register / Vol. 77, No. 58 / Monda | ay, March 20, 2012 / Rules and Regulations | | | |
|--|--|--|--|--|
| 4.3. Indication of any immediate medical attention and special treatment needed | | | | |
| No additional information available | | | | |
| SECTION 5: Firefighting measures | | | | |
| 5.1. Extinguishing media | | | | |
| Suitable extinguishing media | : Foam. Dry powder. Carbon dioxide. Water spray. Sand. | | | |
| Unsuitable extinguishing media | : Do not use a heavy water stream. | | | |
| 5.2. Special hazards arising from the s | substance or mixture | | | |
| No additional information available | | | | |
| 5.3. Advice for firefighters | | | | |
| Firefighting instructions | : Use water spray or fog for cooling exposed containers. Exercise caution when fighting any | | | |
| Drotootion during firefighting | chemical fire. Prevent fire-fighting water from entering environment. | | | |
| Protection during firefighting | : Do not enter fire area without proper protective equipment, including respiratory protection. | | | |
| SECTION 6: Accidental release me | asures | | | |
| 6.1. Personal precautions, protective of | equipment and emergency procedures | | | |
| 6.1.1. For non-emergency personnel | | | | |
| Emergency procedures | : Evacuate unnecessary personnel. | | | |
| 6.1.2. For emergency responders | | | | |
| Protective equipment | : Equip cleanup crew with proper protection. | | | |
| Emergency procedures | : Ventilate area. | | | |
| 6.2. Environmental precautions | | | | |
| Prevent entry to sewers and public waters. No | tify authorities if liquid enters sewers or public waters. | | | |
| 6.3. Methods and material for contain | nent and cleaning up | | | |
| Methods for cleaning up | : Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect | | | |
| | spillage. Store away from other materials. | | | |
| 6.4. Reference to other sections | | | | |
| See Heading 8. Exposure controls and person | al protection. | | | |
| | | | | |
| SECTION 7: Handling and storage | | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling | | | | |
| SECTION 7: Handling and storage | : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling | : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling | : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclusion | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclue Storage conditions Incompatible products Incompatible materials | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclue Storage conditions Incompatible products Incompatible materials Storage temperature | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclue Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclus Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclust Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/per | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclus Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclus Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/pet 8.1. Control parameters 8.2. Exposure controls | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, inclust Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/per 8.1. Control parameters 8.2. Exposure controls Personal protective equipment | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclus Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/pet 8.1. Control parameters 8.2. Exposure controls | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, inclust Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/per 8.1. Control parameters 8.2. Exposure controls Personal protective equipment | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. rsonal protection Avoid all unnecessary exposure. The use of gloves impervious to the specific material handled is advised to prevent skin contact. Suggested protective material: Nitrile, 4.5 mil thickness, tested at 3.5 ml and above | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling Precautions for safe storage, inclust Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/per 8.1. Control parameters 8.2. Exposure controls Personal protective equipment Hand protection | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. rsonal protection Avoid all unnecessary exposure. The use of gloves impervious to the specific material handled is advised to prevent skin contact. Suggested protective material: Nitrile, 4.5 mil thickness, tested at 3.5 ml and above with no breakthrough time after 240 minutes. Chemical goggles or safety glasses. Normally not required. Where there is potential for airborne exposure above the exposure limit | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclue Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/pet 8.1. Control parameters 8.2. Exposure controls Personal protective equipment Hand protection Eye protection Respiratory protection | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. rsonal protection Avoid all unnecessary exposure. The use of gloves impervious to the specific material handled is advised to prevent skin contact. Suggested protective material: Nitrile, 4.5 mil thickness, tested at 3.5 ml and above with no breakthrough time after 240 minutes. Chemical goggles or safety glasses. Normally not required. Where there is potential for airborne exposure above the exposure limit an approved air purifying respirator equipped with Type R or P95 particle filters may be used. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclue Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/per 8.1. Control parameters 8.2. Exposure controls Personal protective equipment Hand protection Eye protection Respiratory protection Other information | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. rsonal protection Avoid all unnecessary exposure. The use of gloves impervious to the specific material handled is advised to prevent skin contact. Suggested protective material: Nitrile, 4.5 mil thickness, tested at 3.5 ml and above with no breakthrough time after 240 minutes. Chemical goggles or safety glasses. Normally not required. Where there is potential for airborne exposure above the exposure limit an approved air purifying respirator equipped with Type R or P95 particle filters may be used. Do not eat, drink or smoke during use. | | | |
| SECTION 7: Handling and storage 7.1. Precautions for safe handling Precautions for safe handling 7.2. Conditions for safe storage, inclue Storage conditions Incompatible products Incompatible materials Storage temperature 7.3. Specific end use(s) No additional information available SECTION 8: Exposure controls/pet 8.1. Control parameters 8.2. Exposure controls Personal protective equipment Hand protection Eye protection Cother information SECTION 9: Physical and chemical | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. ding any incompatibilities Do not store above 120°F. Strong bases. Strong acids. Sources of ignition. Direct sunlight. < 49 °C Do not store in passenger compartment of automobiles. rsonal protection Avoid all unnecessary exposure. The use of gloves impervious to the specific material handled is advised to prevent skin contact. Suggested protective material: Nitrile, 4.5 mil thickness, tested at 3.5 ml and above with no breakthrough time after 240 minutes. Chemical goggles or safety glasses. Normally not required. No additional information available

| SECT | ION 10: Stability and reactivity | | |
|-----------------------------|--|--|--|
| 10.1. | Reactivity | | |
| No addi | itional information available | | |
| 10.2. | Chemical stability | | |
| Not esta | ablished. | | |
| 10.3. | Possibility of hazardous reactions | | |
| Not esta | ablished. | | |
| 10.4. | Conditions to avoid | | |
| Direct s | unlight. Extremely high or low temperatures. | | |
| 10.5. | Incompatible materials | | |
| Strong acids. Strong bases. | | | |
| 10.6. | Hazardous decomposition products | | |
| Carbon | monoxide. Carbon Dioxide. This material can be decomposed by high temperatures forming hydrofluoric acid and possibly carbonyl | | |

Carbon monox high temperatures forming hy id and possibly carbonyl be decomposed by drofluoric a fluoride.

| 1.1. Information on toxicological effec | ts |
|---|--|
| cute toxicity | : Not classified |
| Carboxylic Acid Ester (68515-49-1) | |
| LD50 oral rat | 2000 mg/kg (Rat) |
| LD50 dermal rabbit | 2000 mg/kg (Rabbit) |
| ATE (oral) | 2000.000 mg/kg body weight |
| ATE (dermal) | 2000.000 mg/kg body weight |
| Additional information | Di-isodecyl phthalate (DIDP) has been tested in reproductive toxicology studies in laboratory rats (two-generation studies). There were no effects on fertility, reproductive performance, or evidence of alteration of endocrine processes. A small, statistically significant decrease in offspring survival was observed. In evaluating these and related studies, the EU Risk Assessment for DIDP has concluded that classification and labeling is not required for any effect including reproductive and developmental effects. In addition the NTP Center for Evaluation of Risks to Human Reproduction has concluded that there is negligible concern for reproductive effects in adults and minimal concern for developmental effects in fetuses and children due to DIDP exposure. |
| Skin corrosion/irritation | : Not classified |

Safety Data Sheet according to Federal Register / Vol. 77, No. 58 / Monday, March 26, 2012 / Rules and Regulations

| Carboxylic Acid Ester (68515-49-1) | | | | | |
|---|--|--|--|--|--|
| Serious eye damage/irritation | : Not classified | | | | |
| Respiratory or skin sensitization | : Not classified | | | | |
| Germ cell mutagenicity | : Based on available data, the classification criteria are not met | | | | |
| Carcinogenicity | : (Not expected to cause cancer. This oil meets the IP-346 criteria of less than 3 percent PAH's and is not considered a carcinogen by the International Agency for Research on Cancer.) | | | | |
| Reproductive toxicity | : Based on available data, the classification criteria are not met | | | | |
| Specific target organ toxicity (single exposure) | : Not classified | | | | |
| Specific target organ toxicity (repeated exposure) | : Based on available data, the classification criteria are not met | | | | |
| Aspiration hazard | : Based on available data, the classification criteria are not met | | | | |
| Potential Adverse human health effects and symptoms | : Based on available data, the classification criteria are not met. | | | | |
