

# SAFETY DATA SHEET

### 1. Identification

**Product identifier** Stor & Go® Storage Protection for Ethanol Fuel with PhaseGuard4®

Other means of identification

Product code 05068

Recommended use Fuel treatment and stabilizer

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Manufactured or sold by:

CRC Industries, Inc. Company name

885 Louis Dr. **Address** 

Warminster, PA 18974 US

Telephone

**General Information** 215-674-4300 **Technical** 800-521-3168

**Assistance** 

**Customer Service** 800-272-4620 24-Hour Emergency 800-424-9300 (US)

(CHEMTREC) 703-527-3887 (International) Website www.crcindustries.com

## 2. Hazard(s) identification

Physical hazards Not classified.

Sensitization, skin Category 1 **Health hazards Environmental hazards** Hazardous to the aquatic environment, acute Category 3

hazard

Hazardous to the aquatic environment,

long-term hazard

Category 3

**OSHA** defined hazards Not classified.

Label elements

Signal word

May cause an allergic skin reaction. Harmful to aquatic life. Harmful to aquatic life with long **Hazard statement** 

lasting effects.

**Precautionary statement** 

Prevention Use with adequate ventilation. Open doors and windows or use other means to ensure a fresh air

supply during use and while product is drying. If you experience any symptoms listed on this label, increase ventilation or leave the area. Avoid breathing mist or vapor. Contaminated work clothing

must not be allowed out of the workplace. Wear protective gloves. Avoid release to the

environment.

Response If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical attention. Wash

contaminated clothing before reuse.

**Storage** Store away from incompatible materials.

**Disposal** Dispose of contents/container in accordance with local/regional/national regulations.

Hazard(s) not otherwise

classified (HNOC)

None known.

## Supplemental information

90.65% of the mixture consists of component(s) of unknown acute hazards to the aquatic environment. 91.45% of the mixture consists of component(s) of unknown long-term hazards to the aquatic environment.

# 3. Composition/information on ingredients

R A	:4-	Iros
IVI	IYTI	IFAS

Chemical name	Common name and synonyms	CAS number	%
White mineral oil (petroleum)		8042-47-5	90 - 100
Distillates (petroleum), sweetened		64741-86-2	3 - 5

Specific chemical identity and/or percentage of composition has been withheld as a trade secret.

#### 4. First-aid measures

Inhalation	If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing.
	Call a physician if symptoms develop or persist.

**Skin contact** Remove contaminated clothing immediately and wash skin with soap and water. In case of

eczema or other skin disorders: Seek medical attention and take along these instructions.

**Eye contact** Rinse with water. Get medical attention if irritation develops and persists.

**Ingestion** Rinse mouth. Do not induce vomiting without advice from poison control center. If vomiting occurs,

keep head low so that stomach content doesn't get into the lungs. Get medical attention if

symptoms occur.

Most important symptoms/effects, acute and delayed

May cause an allergic skin reaction. Dermatitis. Rash.

Indication of immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Keep victim under observation.

Symptoms may be delayed.

**General information**Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

# 5. Fire-fighting measures

Suitable extinguishing media	Foam. Dry chemicals. Carbon dioxide (C	:02)
oultable extiliguishing illeula	1 dain. Dry chemicals. Carbon dioxide (C	· U Z j.

Unsuitable extinguishing media

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire-fighting equipment/instructions

Cool containers exposed to heat with water spray and remove container, if no risk is involved.

General fire hazards

No unusual fire or explosion hazards noted.

# 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

**Environmental precautions** 

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Avoid

discharge into drains, water courses or onto the ground. Inform appropriate managerial or supervisory personnel of all environmental releases.

## 7. Handling and storage

Precautions for safe handling Avoid breathing

Avoid breathing mist or vapor. Avoid contact with eyes, skin, and clothing. Avoid prolonged or repeated contact with skin. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Avoid release to the environment. For product usage instructions, please see the product label.

Conditions for safe storage, including any incompatibilities

Keep away from heat and sources of ignition. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

### Occupational exposure limits

Components	Туре	Value	Form
White mineral oil (petroleum) (CAS	PEL	5 mg/m3	Mist.

Typo

**TWA** 

8042-47-5)

Componente

**US. ACGIH Threshold Limit Values** 

Components	туре	value	TOITI	
Distillates (petroleum), sweetened middle (CAS	TWA	5 mg/m3	Inhalable fraction.	
64741-86-2)				

White mineral oil (petroleum) (CAS 8042-47-5)

**US. NIOSH: Pocket Guide to Chemical Hazards** 

Components	Туре	Value	Form	
White mineral oil (petroleum) (CAS 8042-47-5)	STEL	10 mg/m3	Mist.	
	TWA	5 mg/m3	Mist.	

**Biological limit values** 

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Value

5 mg/m3

Form

Inhalable fraction.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Wear protective gloves such as: Nitrile. Neoprene. Polyvinyl chloride (PVC). Hand protection

Wear appropriate chemical resistant clothing. Use of an impervious apron is recommended. Other

If engineering controls are not feasible or if exposure exceeds the applicable exposure limits, use a Respiratory protection

NIOSH-approved cartridge respirator with an organic vapor cartridge. Use a self-contained breathing apparatus in confined spaces and for emergencies. Air monitoring is needed to

determine actual employee exposure levels.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

# 9. Physical and chemical properties

**Appearance** 

Physical state Liquid. **Form** Liquid.

Color Dark brown. Dark red.

Odor Amine-like. Odor threshold Not available. Not available.

Melting point/freezing point -46.8 °F (-43.8 °C) estimated Initial boiling point and boiling 336 °F (168.9 °C) estimated

range

250 °F (121.1 °C) Tag Closed Cup Flash point

**Evaporation rate** Very slow. Flammability (solid, gas) Not available. Upper/lower flammability or explosive limits

Flammability limit - lower

1.3 hPa estimated Vapor pressure

Vapor density > 1 (air = 1)

Relative density 0.86

Solubility (water) Negligible. Partition coefficient

(n-octanol/water)

Not available.

**Auto-ignition temperature** 

410 °F (210 °C) estimated

**Decomposition temperature** Not available. Not available. Viscosity (kinematic) 91 % estimated Percent volatile

## 10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

**Chemical stability** Material is stable under normal conditions.

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Contact with incompatible materials. Conditions to avoid

Strong oxidizing agents. Incompatible materials

**Hazardous decomposition** 

products

Carbon oxides. Nitrogen oxides (NOx). Aldehydes.

# 11. Toxicological information

## Information on likely routes of exposure

Inhalation No adverse effects due to inhalation are expected.

Skin contact May cause an allergic skin reaction.

Eye contact Direct contact with eyes may cause temporary irritation.

Ingestion Ingestion of large amounts may produce gastrointestinal disturbances including irritation, nausea,

and diarrhea. Droplets of the product aspirated into the lungs through ingestion or vomiting may

cause a serious chemical pneumonia.

Symptoms related to the physical, chemical and toxicological characteristics May cause an allergic skin reaction. Dermatitis. Rash.

#### Information on toxicological effects

**Acute toxicity** May cause an allergic skin reaction.

**Product Species Test Results** 

Stor & Go® Storage Protection for Ethanol Fuel with PhaseGuard4®

**Acute Dermal** 

LD50 Rabbit

2000 mg/kg estimated

Inhalation

LC50 Rat 5699 mg/l, 4 hours estimated

Oral

LD50 Rat 2945 mg/kg estimated

Skin corrosion/irritation Prolonged skin contact may cause temporary irritation. Serious eye damage/eye Direct contact with eyes may cause temporary irritation.

irritation

Respiratory sensitization Not a respiratory sensitizer.

<sup>\*</sup> Estimates for product may be based on additional component data not shown.

**Skin sensitization** May cause an allergic skin reaction.

**Germ cell mutagenicity**No data available to indicate product or any components present at greater than 0.1% are

mutagenic or genotoxic.

Carcinogenicity Risk of cancer cannot be excluded with prolonged exposure.

IARC Monographs. Overall Evaluation of Carcinogenicity

White mineral oil (petroleum) (CAS 8042-47-5)

3 Not classifiable as to carcinogenicity to humans.

repeated exposure

Not classified.

Aspiration hazard

Based on available data, the classification criteria are not met.

**Chronic effects** Prolonged exposure may cause chronic effects.

# 12. Ecological information

cotoxicity	Harmful to	Harmful to aquatic life with long lasting effects.		
Product		Species Test Results		
Stor & Go® Storage F	Protection for Ethan	ol Fuel with PhaseGuard4®		
Aquatic				
Acute				
Crustacea	EC50	Daphnia	13.0719 mg/l, 48 hours estimated	
Fish	LC50	Fish	13.0719 mg/l, 96 hours estimated	

<sup>\*</sup> Estimates for product may be based on additional component data not shown.

Persistence and degradability

No data is available on the degradability of this product.

**Bioaccumulative potential** 

Mobility in soil No data available.

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

## 13. Disposal considerations

Disposal of waste from residues / unused products

This product is not a RCRA hazardous waste (See 40 CFR Part 261.20 - 261.33). Empty containers may be recycled. Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose in accordance with all

applicable regulations.

Hazardous waste code

Not regulated.

Contaminated packaging

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.

## 14. Transport information

### DOT

Not regulated as dangerous goods.

# IATA

Not regulated as dangerous goods.

### **IMDG**

Not regulated as dangerous goods.

## 15. Regulatory information

US federal regulations This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication

Standard, 29 CFR 1910.1200. This product is a registered fuel additive.

### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

### US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

### SARA 304 Emergency release notification

Not regulated.

### US EPCRA (SARA Title III) Section 313 - Toxic Chemical: Listed substance

Not listed

#### **CERCLA Hazardous Substance List (40 CFR 302.4)**

Not listed.

#### **CERCLA Hazardous Substances: Reportable quantity**

Not listed.

Spills or releases resulting in the loss of any ingredient at or above its RQ require immediate notification to the National Response Center (800-424-8802) and to your Local Emergency Planning Committee.

## Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

#### Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)

Not regulated.

Safe Drinking Water Act

Not regulated.

(SDWA)

Food and Drug

Not regulated.

Administration (FDA)

#### Superfund Amendments and Reauthorization Act of 1986 (SARA)

Section 311/312 Immediate Hazard - Yes
Hazard categories Delayed Hazard - No

Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No

SARA 302 Extremely No hazardous substance
