## **SECTION 4. FIRST AID MEASURES**

General advice : Do not leave the victim unattended.

Show this safety data sheet to the doctor in attendance.

Move out of dangerous area.

If inhaled : If symptoms persist, call a physician.

If unconscious, place in recovery position and seek medical

advice.

In case of skin contact : Wash contaminated clothing before re-use.

If on skin, rinse well with water.

Remove contaminated clothing. If irritation develops, get

medical attention.

In case of eye contact : Protect unharmed eye.

Remove contact lenses.

Immediately flush eye(s) with plenty of water.

If swallowed : If symptoms persist, call a physician.

Never give anything by mouth to an unconscious person.

Do not give milk or alcoholic beverages.

Obtain medical attention.

Most important symptoms

and effects, both acute and

delayed

: No symptoms known or expected.

Notes to physician : No hazards which require special first aid measures.

## **SECTION 5. FIREFIGHTING MEASURES**

Suitable extinguishing media : Use extinguishing measures that are appropriate to local

circumstances and the surrounding environment.

Water spray

Foam

Carbon dioxide (CO2)

All Fleet™ E900 HEAVY DUTY DIESEL SAE 15W-40 Engine Oil

Version: 2.7 Revision Date: 06/15/2021 Print Date: 06/21/2023

Dry chemical

Unsuitable extinguishing

media

: High volume water jet

Specific hazards during firefighting

: Do not allow run-off from fire fighting to enter drains or water

courses.

If product is heated above its flash point it will produce vapors sufficient to support combustion. Vapors are heavier than air and may travel along the ground and be ignited by heat, pilot lights, other flames and ignition sources at locations near the

point of release.

Hazardous combustion

products

: carbon dioxide and carbon monoxide

Nitrogen oxides (NOx)

Specific extinguishing

methods

: Product is compatible with standard fire-fighting agents.

Further information : Fire residues and contaminated fire extinguishing water must

be disposed of in accordance with local regulations.

Special protective equipment

for firefighters

: In the event of fire, wear self-contained breathing apparatus.

## **SECTION 6. ACCIDENTAL RELEASE MEASURES**

Personal precautions. protective equipment and emergency procedures

: Persons not wearing protective equipment should be excluded

from area of spill until clean-up has been completed.

Ensure adequate ventilation.

Use personal protective equipment.

Environmental precautions : If the product contaminates rivers and lakes or drains inform

respective authorities.

Prevent further leakage or spillage if safe to do so.

Prevent product from entering drains.

Methods and materials for containment and cleaning up : Soak up with inert absorbent material (e.g. sand, silica gel,

acid binder, universal binder, sawdust).

Keep in suitable, closed containers for disposal.

Other information : Comply with all applicable federal, state, and local regulations.

# SAFETY DATA SHEET

All Fleet™ E900 HEAVY DUTY DIESEL SAE 15W-40 Engine Oil

Version: 2.7 Revision Date: 06/15/2021 Print Date: 06/21/2023

Advice on safe handling : Dispose of rinse water in accordance with local and national

regulations.

For personal protection see section 8.

Smoking, eating and drinking should be prohibited in the

application area.

Avoid contact with skin and eyes.

Avoid exposure - obtain special instructions before use.

Container hazardous when empty.

Do not smoke.

Do not breathe vapours/dust.

Conditions for safe storage : Observe label precautions.

Keep container tightly closed in a dry and well-ventilated

place.

Engineering measures

: Provide sufficient mechanical (general and/or local exhaust) ventilation to maintain exposure below exposure guidelines (if applicable) or below levels that cause known, suspected or apparent adverse effects.

Personal protective equipment Respiratory protection

: No personal respiratory protective equipment normally

required.

In the case of vapour formation use a respirator with an approved filter.

A NIOSH-approved air-purifying respirator with an appropriate cartridge and/or filter may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits (if applicable) or if overexposure has otherwise been determined. Protection provided by air-purifying respirators is limited. Use a positive pressure, air-supplied respirator if there is any potential for uncontrolled release, exposure levels are not known or any other circumstances where an air-purifying respirator may not provide adequate protection.

Hand protection

Remarks : The suitability for a specific workplace should be discussed

with the producers of the protective gloves.

Eye protection : Wear chemical splash goggles when there is the potential for

exposure of the eyes to liquid, vapor or mist.

Skin and body protection : Wear resistant gloves (consult your safety equipment

supplier).

Choose body protection according to the amount and

concentration of the dangerous substance at the work place.

Safety shoes Impervious clothing Wear as appropriate:

Hygiene measures : When using do not smoke.

When using do not eat or drink.

Wash hands before breaks and at the end of workday.
